Tanzania Country Poster

COMMON CHALLENGES
1. Calibration of meteorological instruments including AWS
2. Telecommunication
3. Communication of met information
4. Coverage of met stations
5. Interpretation of met information by end users

BROWSER APPLICABILITY OF STRATEGIES
1. Regional training approach of technicians and maintenance of equipment (calibration)
2. Legal framework for cost recovery
3. Early warning systems based on reliable and accurate information
4. Early warning systems based on historical rainfall
5. Early warning systems based on climate change data

End to End Flows
1. Field data
2. Data processing
3. Warning
4. Decision making
5. Reducing losses

ENABLING MONITORING
