NATIONAL ADAPTATION PROGRAMMES OF ACTION

LOCAL ADAPTATION PLANS

Session 3: Element C: Implementation Strategies
Experience from Mozambique

Supporting LDCs to advance their National Adaptation Plans
Africa Regional Training Workshop (Anglophone)
• Reduce vulnerability to CC through adaptation and climate risk reduction with involvement of all actors
# Ongoing Initiatives

## National Strategy for Adaptation and Mitigation to Climate Change (2013-25)
- Local Adaptation Plans – Community capacity and vulnerability on climate change.
- Land Use Planning – zoning, risk map and sustainable development.
- PECODA – Public awareness
- Establishment of Climate Change knowledge center
- Development of Climate Change indicators for M&E framework

## National Adaptation Programme of Action (NAPA)
- Strengthening of an early warning system.
- Strengthening capacities of agricultural producers to cope with climate change.
- Reduction of climate change impacts in coastal zones.
- Management of water resources under climate change.

## Strategic Program for Climate Resilience (SPCR) - PPCR
- Coastal city and climate change.
- Transforming the hydro-meteorological services.
- Sustainable Land & natural resource management.
- Developing the climate resilience on rural communities.

## Adaptation in the coastal zones of Mozambique
- Increase the local adaptive capacity and reduce the vulnerability at the communities.
Example: Outcome of LAP

- Foreword
- Executive Summary

1. Introduction

2. Methodology

3. District Profile
   - 3.1. Physics and Geographic Aspects
   - 3.2. Socio-economic Aspects
   - 3.3. Climate Risks

4. District Development and Climate Change
   - 4.1. District Development and Climate Change
   - 4.2. Theory of Change
   - 4.3. Sectors Strategic Actions
   - 4.4. Specific Strategic Actions
   - 4.5. Action Plan

5. Monitoring and Evaluation System

6. Climate Change Funding/Finance Opportunities

Annexes
Challenges

• Improve the technical capacity to deal with the climate change issues.

• Integrate the climate change issues into all development plans including budgets to support the activities.

• Promote the local adaptation plans in all country.
