ABOUT THE EWS PROJECT, 2015 – 2020

RESULTS

24	Automatic weather stations installed		Drought Information Hubs (InfoHubs) established (Kampot,	1,990	Farmers trained in drought-resistant agricultural techniques
29	Automatic hydro stations installed	8	Takeo, Kampong Chhnang, Pursat, Battambang, Kampong Thom, Siem Reap and		Cambodians reached through extension of
29	Hydrologists, meteorologists and technicians trained in modelling and forecasting		Kampong Cham provinces) trainings conducted for	12,511	phone-based early warning system EWS1294 (in Koh Kong, Sihanoukville, Kampong Cham, Tboung Khmum
	lorecasting	68	cooperative leaders,		and Prey Veng)
1	Forecast Application for Risk Management (FARM) Field School		farmers and partners on drought-resistant agricultural techniques	46,850	Warned using EWS 1294 system under UNDP partnership in 2019
		5	International		
1	Seasonal forecast system (FOCUS) established	J	local partnerships		Children trained during school drills in
2	2 National climate outlook forums ('Monsoon Forums') hosted	21	Number of women trained in disaster risk reduction and early warning system	2,369	collaboration 'Strengthening School Preparedness for Tsunami in Asia and the Pacific' project

The project 'Strengthening Climate Information and Early Warning Systems to Support Climate-Resilient Development in Cambodia' is funded by the Global Environment Facility's Least Developed Countries Fund and supported by the UN Development Programme in Cambodia
