

Project Title: Encouraging the Early Flood Warning System and Disaster Response Mechanism in Suriname

Project Country: Suriname

Responsible Organization: The National Coordination Center for Disaster Control – NCCR Suriname

Proposed Budget (USD): JCCCP Grant Funding: \$50,000
In Kind Contributions: \$19,705.57
Total Budget: \$128,205.16

Project Objective

This project seeks to enhance the early warning and response mechanisms with regard to flood related hazards on a sub-national level in the districts of Nickerie and Sipaliwinie.

Selected Focal Areas

This project will incorporate the following focal areas identified under Outcome 2 of J-CCCP:

- Community Based Climate Smart Resilient Infrastructure

Targeted Stakeholder Groups

A number of stakeholders will be targeted by the project, as outlined below:

- The District Commissioners Offices
- Communities vulnerable to flooding in the districts of Nickerie and Sipaliwini

Project Activities

The project will undertake the below activities:

- The implementation of a small-scale structure to reduce climate and disaster-induced losses.
- Capacity building in disaster response and preparedness and disaster risk and vulnerability identification.
