

# THE TIME TO ACT IS NOW

Climate change is not “on its way”. It’s here and it’s costing us. It affects our economy, ecosystem and way of life. It means unpredictable weather patterns, increased unemployment and rampant natural disasters. We have to **act now** before it’s too late.

Visit [www.adaptation-undp.org](http://www.adaptation-undp.org) for more information on how you can make a difference.
